

EA+® Expanded Evacuation

The following services are available when you are Traveling Away From Home and Outside The United States.

Emergency Security or Political Evacuation/Repatriation:

If you are Traveling Away From Home and Outside The United States and your current international location is being threatened by a Security or Political Emergency Situation due to governmental or social upheaval, EA+ will arrange and provide transportation to remove you from the area. Emergency Political Evacuation/Repatriation services are provided by EA+ security personnel to the nearest safe location, and then to your Home, if needed. The decision to Emergency Evacuate/Repatriate due to a Security or Political Emergency Situation will be made by EA+ security personnel in consultation with local governments and security analysts. This service is only available when you are Traveling Away From Home and Outside The United States, and you cannot obtain commercial transportation to the nearest safe location within a time period which will enable you to leave the foreign location in time to avert Imminent Bodily Harm or to comply with the time allowed to leave the foreign country pursuant to the orders of the recognized government of that foreign country.

In the event you are in an area in which an act of rebellion, riot, military uprising, war, terrorism, labor disturbance, strike, nuclear accident, or interference by authorities inhibits EA+'s ability to fully provide services, EA+ shall nonetheless use its best efforts to provide its services, recognizing that obstacles beyond its control will affect the level of service. EA+ cannot be held responsible for failure to provide services or for delays caused by strikes or other conditions beyond its control including, but not limited to, flight conditions, or where rendering of service is prohibited by local laws or regulatory agencies.

The following services are available when you are Traveling Away From Home.

Natural Disaster Evacuation/Repatriation:

If you are Traveling Away From Home and your current location has been impacted by a Natural Disaster Situation, EA+ will on a best-effort basis arrange and provide an evacuation from a safe departure point EA+ designates, to a safe haven of EA+'s selection and then to your Home, if needed. If evacuation becomes impractical due to hostile or dangerous conditions, EA+ will maintain contact with you and advise you until evacuation becomes viable or the Natural Disaster Situation has passed. This service is only available when you are Traveling Away From Home.

EA+ will only arrange and provide a Natural Disaster Situation evacuation up to and including seven (7) days from the date the official disaster declaration was issued.

EA+ retains the discretion to limit one (1) emergency evacuation and/or repatriation attributable to any single Security or Political Emergency Situation and/or one (1) emergency evacuation and/or repatriation attributable to any single Natural Disaster Situation per eligible Member.
